No bare hands
when cleaning or
moving material

ALL SURFACES MUST BE CLEANED WITH DISSINFECTANT CLEANER

DISINFECTING
SPRAY

RAG

OR

DISINFECTING WIPES

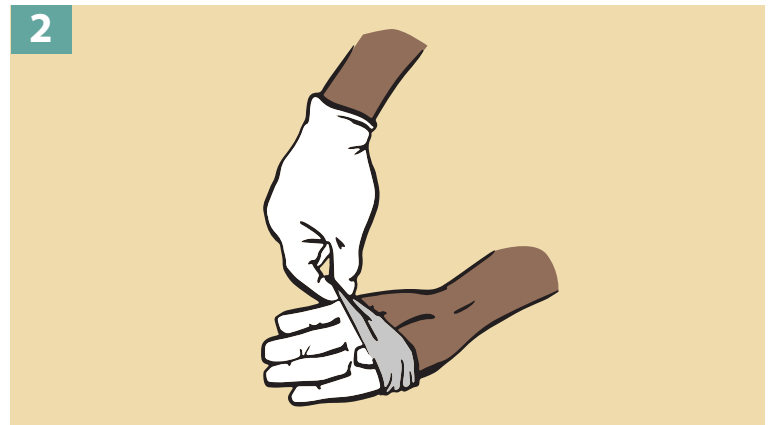

How to Remove Gloves

To protect yourself, use the following steps to take off gloves

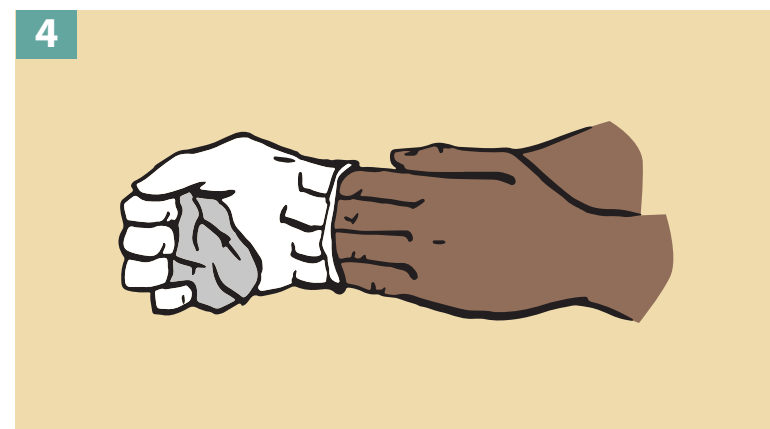

Grasp the outside of one glove at the wrist.
Do not touch your bare skin.

Peel the glove away from your body,
pulling it inside out.

Hold the glove you just removed in
your gloved hand.

Peel off the second glove by putting your fingers
inside the glove at the top of your wrist.

Turn the second glove inside out while pulling
it away from your body, leaving the first glove
inside the second.

Dispose of the gloves safely. Do not reuse the gloves.

Clean your hands immediately after removing gloves.
