

## Appendix: COVID-19 Testing Options

This list of available COVID-19 testing options can be used by employers to support their employees in getting tested. This list is not exhaustive of all testing options available and may change over time. All of the below COVID-19 testing options are available in NYC.

### A. Citywide Testing Sites

- There are hundreds of testing locations across the city, including mobile testing sites.
- To find a testing center near you, use NYC’s test site finder: [nyc.gov/covidtest](https://nyc.gov/covidtest).
- NYC Health + Hospitals offers free testing at hospitals, health centers and new pop-up locations across the five boroughs.
- NYC Health Department offers free testing at nine clinics across the city, [by appointment](#).
- Employees should bring an insurance cards and ID if they have them.

### B. Home Testing Kits for Individuals

- These companies provide FDA-authorized at-home testing kits that can be ordered online.
- Some companies require the individual to complete an online questionnaire or consultation first.
- After completion, the test will be sent along with instructions on how to collect a sample.
- A provider from the company will provide test results and information regarding next steps through an online portal/application, email or by phone.
- To request up-to-date pricing and testing information, please contact the company directly.

\*Individuals will need to self-pay and then submit an itemized receipt to their insurance company for reimbursement. FSA and HSA cards accepted.

### C. Organization/Enterprise Testing Options

- These companies provide scalable testing solutions for employers and businesses to provide COVID-19 specimen collection at-home or on-site testing using either self administered tests or tests administered via a health care provider.
- They also include options to prepay or bulk purchase at home-testing kits.
- Tests results are managed and distributed via online portals, and follow up from health care providers can be arranged using telehealth visits.
- To request up-to-date pricing and testing information, please contact the company directly.
